Cloudcast Media Extends SheEO Franchise With New Show “SheEO: Military”

New Cloudcast D.C. show, hosted by entrepreneur and author Jamie Moraga, celebrates the women of the U.S. military

WASHINGTON, D.C. – November 24, 2026: Cloudcast Media, the national leader in local podcasting, with content available in more than 100 U.S. cities, today announced “SheEO: Military,” a new show extending its SheEO franchise. Produced by Cloudcast D.C., the show celebrates the many remarkable women serving in and alongside the U.S. military, and marks Cloudcast’s latest investment in what it calls “the century of women.”

Since launching in 2021, SheEO has grown to more than 180 episodes of real conversations with women leaders about success, setbacks, and building a purposeful life. “SheEO: Military” is the franchise’s first industry-focused show, spotlighting servicewomen, veterans, military spouses, and the women leading across the defense community, and sharing their stories of leadership, service, and resilience.

The show will be hosted by Jamie Moraga, entrepreneur, military-connected leader, and author of the Amazon bestseller *REVERED: The Power of Female Leadership*. Moraga is CEO of Franklin Revere LLC and previously founded and led intelliSolutions, inc., a woman-owned military and defense contracting business, from 2006 through its acquisition in 2022. She is a past President and current Advisory Board member of the San Diego Military Advisory Council (SDMAC), and a former San Diego chapter and national board member of the National Defense Industrial Association.

“We believe this is the century of women, and Cloudcast is proud to keep investing in the stories that prove it,” said Charles Parisi, CEO of Cloudcast Media. “SheEO has grown into a true franchise, and ‘SheEO: Military’ is our first industry-focused show for women. There’s no better place to start than the U.S. military, where women lead with courage every day, and no better host than Jamie Moraga, who has lived this world as a military daughter, a defense entrepreneur, and a champion of female leadership.”

“The military has shaped my life from the very beginning,” said Jamie Moraga, host of “SheEO: Military.” “As a young girl, I watched my father lead in the military while my mother led our family at home, and those examples stayed with me as I built a business in the defense world. Serving the military community through SDMAC has been one of the great honors of my career. I’ve always loved stories of women’s leadership, and the women of our military have some of the most powerful stories of all. I’m thrilled to give them a platform with Cloudcast.”

About SheEO

SheEO is a Cloudcast Media podcast franchise featuring powerful women and powerful stories: real conversations between women about success, setbacks, and the road to building a purposeful life.
